

Magnitude[®] WMC Magnetic Bearing Chiller Maintenance and Operation Course

*Maintenance, operation, trouble shooting, and performance analysis
of Daikin Magnitude WMC Magnetic Bearing Centrifugal chillers*

Daikin Applied is accredited by the International Association for Continuing Education and Training (IACET) and is authorized to issue the IACET CEU.

Magnitude[®] WMC Magnetic Bearing Chiller

Maintenance and Operation Course

Course Location

Daikin Applied
207 Laurel Hill Road
Verona, VA 24482
PH: 540-248-9646
FAX: 763-509-7663

Course Fee

\$1,600

Course Length

3.5 days

CEU's Offered - 2.5

Yes No

Testing Required

Yes No

2017 Course Schedule

Apr 10 - 13

Sep 26 - 29

Registration Deadline

Mar 24

Sep 8

The training fee is 10% higher for registrations received after the deadline.

Daikin Learning Institute will provide

Instruction Materials
Coffee Breaks
Lunch
Group Dinner on first night

Magnitude[®] WMC Magnetic Bearing Chiller Maintenance & Operation Course

The Magnitude WMC Magnetic Bearing Chiller Course is designed to teach the maintenance technician and building engineer how to maintain, operate, troubleshoot, and analyze performance of Magnitude WMC magnetic bearing chillers. The standard program for the Magnitude WMC Magnetic Bearing Chiller Course is three and one-half days of intensive training.

Prerequisite:

The student should have a minimum of 5 years experience with Centrifugal chillers to maximize the benefit of this course. The Magnitude chiller uses a centrifugal compressor that has highly technical components.

Learning Outcomes:

Upon successful completion of this course, students will be able to:

- Define and analyze the basic refrigeration cycle of water chillers
- Distinguish the three different vintages of WMC chillers
- Identify different types of chillers and their manufacturing processes during a plant tour and product review
- Describe magnetic bearing with VFD compressor design, maintenance and operation
- Identify and describe MicroTech[®] II for Magnitude WMC software & sequence of operation
- Assess Electronic EXV Valve operation
- Describe the purpose and function of WMC part-load-balance valves
- Assess and operate cooling tower controls with Magnitude WMC Chillers
- Identify and describe various chilled and condenser water system designs
- Analyze operational data using trends and log sheets
- Operate MicroTech[®] II controls using hands-on lab sessions
- Perform WMC chiller maintenance

Upon completion of this training course, students will be provided access to the Daikin Applied Technical Response Center for technical assistance on Daikin Magnitude[®] WMC Centrifugal products.

Daikin Learning Institute Safety Statement

The goal of Daikin Learning Institute is to provide product specific training and information necessary to establish a high level of proficiency in operating and servicing Daikin products. While product specific safe work procedures are built into our training program, knowledge and formal training of an applicable safe working culture, competency, practices and procedures for working in the HVAC field is the obligation of the employer and individual prior to attending Daikin Applied equipment training.
